

## **CANI-TABS® REPRO+**

Palatable tablets

Nutritional Supplement Promoter of Reproductive Health and Fertility

## Formulation

Cada tableta contiene: Vitamina E 6.6 mg, Selenio 25 mg, Acido Fólico 0.7 mg, Niacinamida 6.12 mg, Arginina 13.47 mg, Histidina 13.47 mg, soleucina 13.47 mgValina 13.47 mg Excipientes c.s.p 1 tableta

Nutritional supplement recommended for promotion of the development, health and proper functioning of the reproductive system as well as adequate fertility. In bitches and cats: Strengthens the health of the female, contributing to adequate heat, supporting fetal development and lactation. In dogs and cats: As a support for sperm concentration and viability. Optimizes reproductive performance in older dogs or in dogs with limited sexual function.

## Dosage and Administration

"Daily oral supplement. Due to its high palatability, it can be administered directly, before meals or by disintegrating them and mixing them with them. Canines: dogs weighing up to 5 kg: 1-2 tablets daily. Dogs from 5 to 25 kg: 3-4 tablets daily. Dogs weighing more than 25 kg: 5-6 tablets daily as a maximum dose. Felines: 1 tablet daily for every 2 kg of weight"
