.....	0.05 gExcipients c.s.p	
.....	100 g	

Indications

Promoter of health, growth and good condition of the skin, fur and claws as well as a shiny and healthy coat. Preventive and adjuvant in the treatment of and recovery from acute moist dermatitis (hot spots), allergic dermatitis, seborrhea (dry or wet), dry skin, unpleasant odor, excessive hair loss; support in the event of wounds, irritation, insect bites and/or itchy skin, and dull coat. Acceleration of coat replacement during molting. Relieving of various symptoms including hair and claw loss.
